Objective

Experienced Software Engineer proficient in PHP, Laravel, and full-stack web development with strong skills in scalable application design, MVC architecture, and database management. Seeking challenging opportunities to deliver innovative and user-centric solutions. Holds a B.Tech in Computer Science Engineering.

Functional Summary

- Skilled PHP & Laravel developer with experience in building scalable web applications and RESTful APIs.
- Proficient in MVC architecture, MySQL design, query optimization, and efficient SQL writing.
- Experienced with AJAX, jQuery, JavaScript, and WebSocket for dynamic, real-time UI development.
- Hands-on Firebase integration for push notifications and real-time updates.
- Familiar with Git version control, cPanel hosting, and deployment best practices.
- Adept at customizing modules, developing admin panels, and integrating third-party APIs.
- Strong debugging, testing, and performance tuning skills with collaborative team experience.

Skills

Technical Skills:

- Programming Languages: C, C++, PHP, Express.js, JavaScript
- Frameworks & Libraries: Laravel, CodeIgniter, React.js, GSAP, AOS, Animate.css, Locomotion (Parallax Effects)
- Databases: MySQL, PostgreSQL, MongoDB
- Web Technologies: HTML5, CSS3, AJAX, MVC Architecture
- AI Tools: Cursor, ChatGPT, GitHub Copilot & more
- Version Control: Git
- Tools & Platforms: cPanel Hosting, Firebase

Education

B. Tech in Computer Science and Engineering

Sharad Institute of Technology,
College Of Engineering, Yadrav

Completed, 2023

7.63 CGPA

Division 1

HSC

Govindrao High School & Junior College,
Ichalkaranji, MH Board

Completed, Jun 2019

Marks 71.38 %

Division 1

SSC

The New English School,
Chandur, MH Board

Completed, Jun 2019

Marks 83.80 %

Division 1

Work Experience

Software Developer

301io Technologies, Pune

March 2025 - Present

Roles & Responsibilities:

- Developed and maintained web applications using PHP, CodeIgniter, and Laravel with MVC architecture for scalable code.
- Integrated APIs, WebSocket real-time features, and Firebase push notifications into ERP and custom solutions.
- Designed responsive, interactive front-end interfaces using HTML, CSS, JavaScript, Tailwind CSS, and Bootstrap with a focus on UI/UX.
- Managed cPanel hosting environments including deployment, domain setup, SSL configuration, and performance optimization.
- Built secure backend features covering authentication, data processing, and optimized MySQL/PostgreSQL queries.

Software Developer

SoftwareGen Technologies Pvt. Ltd

Sept 2023 - Feb 2025

Roles & Responsibilities:

- Developed and maintained software applications using PHP and Laravel, ensuring high performance and scalability.
- Integrated Paytm and Razor pay payment gateways for seamless transactions.
- Involved in the full SDLC, including analysis, design, development, testing, and maintenance.
- Built dynamic, database-driven applications with third-party API integrations.
- Created admin panels, reusable PHP modules, and optimized code for efficiency.
- Integrated user-facing elements with backend logic and solved performance challenges.
- Conducted debugging, testing, and optimization to enhance application quality.

Projects

1. SpyClass- School Management ERP Software

- <https://demo.spyclass.co.in/> - 301io Technologies
- Developed a CodeIgniter 3-based ERP system using AJAX and jQuery, implementing core modules such as Fees Collection, Front Office, Attendance (integrated with eSSL biometric devices), Role-Based Access Control (**RBAC**), Teacher Syllabus Management, Online Exams, and Homework Management.
- Created **RESTful APIs** for mobile app integration and implemented a secure **WebSocket**-powered internal chat system with libraries to prevent vulnerabilities during communication.
- Integrated **Firestore push notifications** for real-time alerts to students and staff.
- Implemented **Zoom API** integration to enable online classes and meetings within the ERP platform.
- Developed custom hooks for dynamically connecting multiple databases, optimizing server costs and reducing file size.
- Designed and built responsive and interactive UI/UX interfaces using Tailwind CSS, alongside custom email templates and a front-facing website.

2. Omunim Jewellery ERP Software

- <https://omunim.in/> - SoftwareGen Technologies, Pune
- Developed and maintained core modules such as Scheme, Sell, Purchase, Transaction, Stock Management, Loan, Accounting Management, and Daybook.
- Worked on Laravel MVC-based client projects, ensuring efficiency, scalability, and performance.
- Responsible for bug fixing, requirement analysis, and implementing customer-specific solutions.
- Proficient in PHP, Laravel, JavaScript, AJAX, HTML/CSS, and RESTful APIs, optimizing web applications for smooth functionality.

3. Front-End Website Development

- Designed and developed multiple responsive, interactive websites for clients and internal use, focusing on engaging UI/UX.
- Built the 301io company website using Tailwind CSS, GSAP, AOS (Animate on Scroll), and Animate.css to create smooth animations and dynamic user interactions.
- Developed the SpyClass front website, aligning with the ERP branding and usability standards.
- Currently learning the MERN stack, with hands-on mini projects including Library Management, Portfolio, and Employee Management systems to strengthen full-stack development skills.

Achievement

- **Best Beginner Developer:** Received the Best Beginner Award at SoftwareGen's biannual award ceremony on the occasion of Diwali. Recognized for extraordinary work, consistently delivering projects ahead of deadlines while ensuring client satisfaction. Demonstrated strong work ethic, attention to detail, and effective communication skills.
- **Director's Special Recognition Award:** Received the Director's Special Recognition Award at the annual award event for designing an errorless scheme and loan panel in software. Acknowledged for demonstrating a combination of hard work and smart work, consistently completing all tasks on time.
